DETAILED ACTION

1. Applicant's amendment filed on July 20, 2008 has been entered and made of record.

Election/Restrictions

2. The elected claims (claims 1, 12-22, 32-42, 50-59, 61-62 and 65-66) are allowable. The restriction/election requirement between Species 1-4, as set forth in the Office action mailed on April 5, 2007, has been reconsidered in view of the allowability of claims to the elected Species 4 of the Invention I pursuant to MPEP § 821.04(a). **The restriction/election requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 2-9, 23-29, 43-47, directed to Species 1-3 and claims 10, 30, 48 and 63 are no longer withdrawn from consideration because the claims require all the limitations of an allowable independent claims 1, 22, 42 and 59. However, claims 67-78, directed to non-elected Invention II remain withdrawn from consideration because they do not all require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 67-78 directed to Invention II non-elected without traverse (see Requirement for Restriction/Election mailed on April 5, 2007, Applicant's Response to Restriction/Election filed on May 7, 2007, and Office action mailed on July 26, 2007). Accordingly, claims 67-78 have been cancelled. See MPEP 821.02.

Response to Arguments

3. Applicant's arguments, see page 16, filed on July 20, 2008, with respect to the objection to claims 12, 32 and 50 under 37 C.F.R. 1.75(a) have been fully considered and are persuasive. The objection to claims 12, 32 and 50 has been withdrawn.

Applicant's arguments, see page 16, filed on July 20, 2008, with respect to the Restriction Requirement have been fully considered and are partially persuasive. Specifically, the all claims directed to Species 1-4 are rejoined as pointed out in preceding paragraph 2 and all claims directed to Invention II are not rejoined as pointed out in the preceding paragraph 2 as well.

Examiner's Amendment

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

(i) Please change/amend the claim identifier as follows:

-At line 1 of each claim of claims 2-10, delete "Withdrawn – Previously Presented" and insert "Previously Presented".

-At line 1 of each claim of claims 23-30, 43-48 and 63, delete "Withdrawn" and insert "Original".

(ii) Please cancel claims 67-78.

Allowable Subject Matter

5. Claims 1-10, 12-30, 32-48, 50-59 and 61-66 are allowed.

The following is an examiner's statement of reasons for allowance:

Reference is made to paragraph 7 of the previous Office action mailed on 7/26/07 as to the reasons for allowability of claims 1-10, 12-30, 32-48, 50-59 and 61-66. Specifically, the cited prior art does not teach or suggest the claimed features that of: "automatically creating a companion bitstream separate from the combined bitstream, said companion bitstream including information elements for reshaping the combined bitstream" as recited at last 3 lines of independent claims 1 and 22; "automatically creating a companion bitstream separate from the master bitstream, said companion bitstream including information for reshaping the master bitstream" as recited in last two lines of independent claim 42; and "automatically creating a companion bitstream separate from the master bitstream, as part of the multiplexing process, said companion bitstream including information for reshaping the master bitstream" as recited in last 3 lines of independent claim 59.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duy M. Dang whose telephone number is 571-272-7389. The examiner can normally be reached on Monday to Friday from 6:00AM to 2:30PM.
